

# BUTTERFLY COAT RACK — BCR

BRASS / MOVINGUI OR COCOBOLO WOOD, 1960

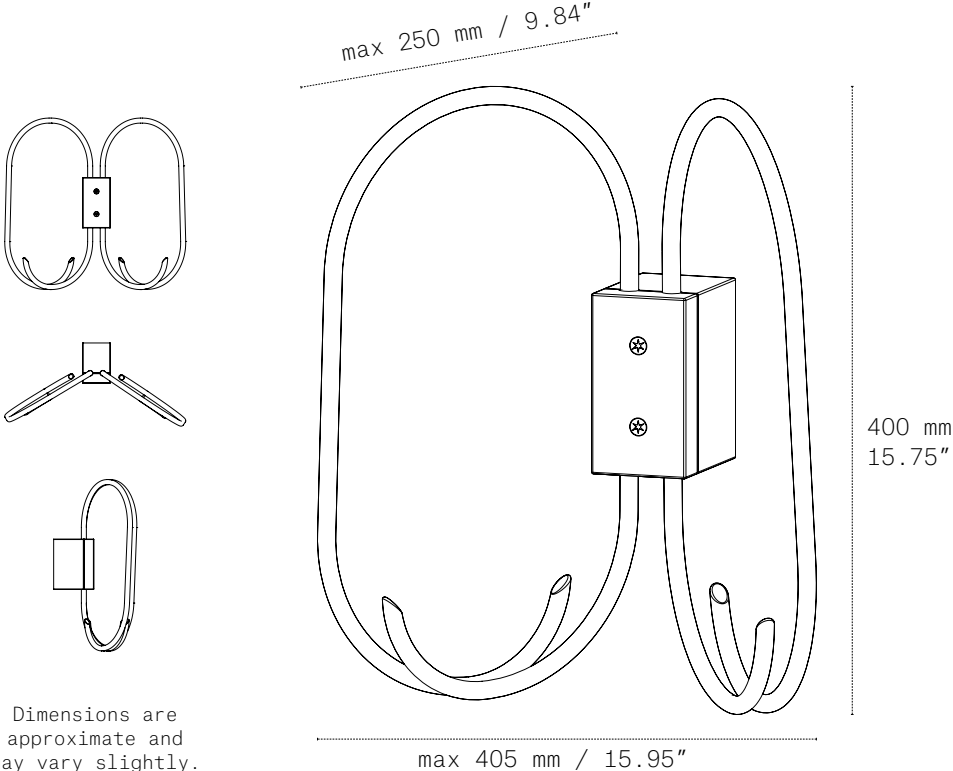

The Butterfly Coat Rack is made of a pair of mobile brass hooks and a plain exotic wood block – either Movingui or Cocobolo Wood. This coat rack was first conceived to support four pieces of clothing and two hats. Today, the upper part can be used to hang different types of garments without deforming them. Both models are handmade with the same level of craftsmanship and material quality as those found in Wabbes' family attic.
