

IRON DOORKNOB

RAW BRONZE, C. 1960

This large size doorknob (the size of an iron) was probably one of the first to be designed by Jules Wabbes, before the creation of General Decoration in 1969. It can be seen on a picture of the first showroom of the Mobilier Universel in Brussels. The Mobilier Universel was Wabbes' first company, created in 1957.

The doorknob can be fixed vertically or horizontally and on both sides of the door. The raw bronze is soft and smooth. It can be used outside by all-weather and gets a nice patina. These doorknobs can be seen at the Louvain-la-Neuve Library, now a museum.

One was exhibited at the Bozar retrospective (2012).
